

Instructional Supplement for SP5 Magazine Release and Parts Lists

CLEARING PROCEDURES

1. Point the muzzle of the SP5 in a safe direction.

Ensure the muzzle is pointed in a safe direction and that the operator's fingers are off the trigger and outside the trigger guard.

2. Remove the magazine.

Depress the magazine release lever or button and remove the magazine from the magazine well.

Figure 1 - Depress the magazine release lever or button.

Figure 2 - Remove the magazine from the magazine well.

3. Check chamber is empty.

Rotate the ejection port towards the ground and pull the cocking handle rearward one or more times to insure chamber is empty. Rotate the cocking handle upward slightly and lock it into the indent in the cocking lever housing to lock the bolt open.
